Towing & Vehicle Transport Company (Rapid Growth)

This 3 year old towing and transport company has 15 trucks (13 of which operate on a cheap alternative fuel source), $450,000 worth of trucks and equipment, a fully equipped 5,000 sq. ft. automotive repair facility, 10 drivers, 3 dispatchers, 1 manager, $1,000,000 in revenues and $150,000 cash flow in very little time. The business also does some auto repair work for customers. With the strong competitive advantage of operating on a cheap alternative fuel source (that costs b/w $1.25 to $1.50 a gallon), combined with the ability of the company to repair it's own vehicles, the company has a huge competitve advantage. Lastly, the owner has grown the business 15% in the last 3-4 months by providing semi-long distance transport of vehicles for auction houses and wholesalers. This business is lucrative and will continue to be grown.
